

Privacy Notice

Trusted. Unique. Inspiring. At TUI, we create unforgettable moments for our customers worldwide and make their dreams come true. One key part of this is our responsible handling of any personal data that you share with us. We want to reassure you that your data is safe with us and that you know how we use it to provide you with a better, unique and inspiring experience. Further information can be found on the TUI Group website. You can find our detailed cookie notice [here](#).

1. Scope of application of this data privacy statement

Robinson Club GmbH (referred to as "we" or "us" in this data privacy statement) collects and processes your data as the controller. We are part of the TUI Group and therefore a subsidiary of TUI AG.

We broker the following TUI Group hotel brands (referred to as "TUI hotel brands" in this data privacy statement) on tuiamello.com:

- TUI Blue (TUI Hotel Betriebsgesellschaft mbH)
- Robinson (Robinson Club GmbH)
- TUI Magic Life (Robinson Club GmbH)
- TUI Suneo (TUI Hotels & Resorts)
- The Mora (TUI Hotel Betriebsgesellschaft mbH)
- AQI (TUI Hotels & Resorts Türkiye)
- Akra (Akra Hotels)
- Atlantica (Atlantica Hotels & Resorts)
- Grupotel (Grupotel Hotels & Resorts)
- Iberotel (JAZ Hotel Group)
- RIU (RIU Hotels & Resorts)
- Royalton (Blue Diamonds Hotels & Resorts)

The TUI hotel brands we offer on tuiamello.com are based on different concepts. During your hotel stay, your personal data will therefore be managed by both Robinson Club GmbH and the respective hotel. Both act as the controller within the meaning of data protection legislation.

The hotel you book may belong to a company that is not itself a TUI Group company. This is because hotels of the TUI hotel brands may be operated by a TUI Group company itself or on the basis of a franchise or management agreement concluded between the hotel operating company, which does not belong to the TUI Group, and a TUI Group company. A list of hotels operated by a TUI Group company can be found [here](#). To find out which company operates a franchise or management hotel, please contact the hotel.

Robinson Club GmbH processes your data as part of its central booking system and its global customer database, which records customers staying in a TUI hotel brand hotel. Robinson Club GmbH (and its affiliated companies) also manage the Group's customer loyalty programme and implement marketing activities.

The hotel operating companies process your data to handle the contractual relationship with you (this includes invoicing, payment, and booking management), to implement the hotel's own marketing activities and to meet the legal requirements.

7.2. To manage and improve our products and services

We use personal data to manage and improve our products, websites, mobile apps, customer loyalty and customer recognition programmes and other services.

We may use personal data to conduct market research and internal development and to develop and improve our product range, services, shops and IT systems, security, expertise and methods of communicating with you.

Legal basis:

Our legitimate interest in monitoring and improving our products and services (Article 6 (1) (f) GDPR).

7.3. For security reasons and to prevent and prosecute criminal activities

We monitor how our services are used to protect your personal data and to detect and prevent fraud, other criminal offences and misuse of services. This helps us to ensure that you can use our services safely.

Legal bases:

- Our legitimate interest in the protection of our visitors, customers and other business partners as well as our assets and the security of our products and services (Article 6 (1) (f) GDPR).
- The fulfilment of our legal obligations (Article 6 (1) (c) GDPR).

7.4. To personalise your experience

We want to ensure that marketing communications (including online advertising) relating to our products and services and those of our suppliers, trading partners and the TUI Group are tailored to your interests.

To do this, we use your personal data to better understand your interests so that we can try to predict what other products, services and information you might be most interested in. This enables us to tailor our communications to make them more relevant and interesting for you.

Looking at your online behaviour and purchases helps us to understand you as a customer and enables us to offer you personalised offers and services.

We may also consider your feedback on our marketing activities regarding our range of products and services. This allows us to offer you products and services that better meet your needs as a customer.

If you do not wish to receive a personalised service from us, you can change your preference at any time by contacting us online, by telephone or in writing (e.g. email). We will update your data as soon as possible.

Legal basis:

Our legitimate interest in offering our customers products and services tailored to their interests (Article 6 (1) (f) GDPR)

7.5. To contact and interact with you

We want to serve you as a customer even better. So if you contact us, for example by email, post, telephone or via social media, we may use personal data to deal with your request as quickly and efficiently as possible.

Legal basis:

The processing is necessary for the fulfilment or initiation of a contract with you at your request (Article 6 (1) (b) GDPR).

7.7. Marketing communication

a) with your consent

From time to time, we would like to send you offers and news about our products and services in various ways, such as by email, messenger or telephone. We would also like to send you information about products and services from other companies that we think may be of interest to you. We will only do this if you have previously agreed to receive these marketing communications.

When you register with us or arrange a hotel stay through us, we will ask you whether you would like to receive marketing communications and through which channel. You can change your marketing preferences at any time by contacting us by email at dataprotection@robinson.com, by clicking on the unsubscribe link in our marketing emails or by writing to the Data Protection Officer at Robinson Club GmbH, Karl-Wiechert-Allee 23, 30625 Hannover, Germany.

Of course, the choice is entirely up to you. If you tell us that you do not want to receive marketing information from us, you will miss out on receiving great offers that may be of interest to you.

However, you may still receive service-related communications from us. For example, confirmations of bookings you make with us and important information about the use of our products and services.

Legal basis:

Your consent (Article 6 (1) (a) GDPR)

b) For product recommendations by email (existing customer advertising)

As a customer of Robinson Club GmbH, you will regularly receive product recommendations from us or our hotel operating companies by email. You will receive these product recommendations from us regardless of whether you have subscribed to a newsletter or have consented to marketing communication by email. In this way, we want to provide you with information about products from our range that may be of interest to you based on your recent purchases from us. In doing so, we adhere strictly to the legal requirements.

Whenever your contact details are used for advertising purposes, we expressly

draw your attention to your right of objection, which you can exercise easily and without red tape at any time.

If you no longer wish to receive product recommendations from us by email, you can object to this at any time by sending a message in text form to dataprotection@robinson.com. Of course, you will also find an unsubscribe link in every email.

Legal basis:

Our legitimate interest in offering our customers comparable products and services (Article 6 (1) f) GDPR in the context of Section 7 (3) UWG)

c) To personalise your experience

We want to ensure that marketing communications (including online advertising) relating to our products and services and those of our suppliers, trading partners and the TUI Group are tailored to your interests.

To do this, we use the personal data you submit and any automatically generated data to better understand your interests so that we can try to predict what other products, services and information you might be most interested in. This enables us to tailor our communications to make them more relevant to you. We use existing information for this purpose, such as confirmations of receipt and read receipts of emails, information about your computer and connection to the Internet, operating system and platform, your order history, your service history, date and time of your visit to the homepage, products that you have viewed. We use this information exclusively in pseudonymised form. This analysis and evaluation helps us to better understand you as a customer and enables us to provide you with personalised offers and services. Our aim is to make our advertising more useful and interesting for you, i.e. to offer you products and services that better meet your needs as a customer.

If you do not wish to receive a personalised service from us, e.g. a personalised newsletter, you can object to the personalisation of your advertising to us at any time, e.g. by telephone, in writing or by email (e.g. to dataprotection@amello.com). In this case, you will receive unsuitable standard advertising. You can of course also object to marketing communication from us altogether or withdraw your consent at any time. We will update your data as soon as possible.

d) Market research

Your opinion is important to us. In order to improve our products and services, we may contact you for market research purposes. You always have the choice of whether you want to participate in our market research.

Detailed information on the data collected in the questionnaire, in particular on the anonymous evaluation, is explained in detail in the accompanying information. If customer satisfaction surveys are sent to you by email, we have either obtained your explicit advertising consent in accordance with Article 6 (1) (a) GDPR. If you do not wish to receive the questionnaire, simply let us know by sending an email to dataprotection@robinson.com.

Legal basis:

Our legitimate interest in improving our products and services through market research (Article 6 (1) (f) GDPR)

7.8. For legal purposes

We may process your personal data for the establishment, exercise or defence of legal claims, including related dispute or dispute resolution proceedings, for regulatory and governmental investigations and our general compliance obligations, for internal investigations, to enforce our terms and conditions and other terms of use, or to respond to lawful requests by law enforcement or other authorities.

Legal bases:

Our legitimate interest in the establishment, exercise or defence of legal claims (Article 6 (1) (f) GDPR)

The fulfilment of our legal obligations (Article 6 (1) (c) GDPR)

7.9. Special categories of personal data

If we have to process special categories of personal data for the above purposes (as described above), this is only done on the basis of a separate legal basis. The following may be considered as such:

- Your express consent (Article 6 (1) (a) GDPR),
- Processing is in a serious public interest or is carried out in the exercise of official authority (Article 6 (1) (e) GDPR),
- It is necessary to protect the vital interests of you or other persons, e.g. if you are physically or legally incapable of giving your express consent (Article 6 (1) (d) GDPR),
- The processing is necessary for the fulfilment of a contract with you (Article 6 (1) (b) GDPR).

8. Sharing of personal data

As a rule, we do not pass on your personal data to third parties unless this is necessary for the fulfilment of your contract, in particular for the execution of your booked trip or the provision of other products and services or for the other purposes of data processing mentioned above or for legal reasons. In particular, we may share your personal data with the following recipients:

8.1. With suppliers and service providers

In order to provide the products and services you request, we may need to share personal data with external service providers, including independent spa operators or sports providers (e.g. water sports), security services and transport companies.

We also work with carefully selected providers who perform certain functions for you. For example, with companies that help us with IT services, data storage and linking, marketing, market research, processing of payment transactions and the provision of products and services.

Where our service providers and partners process personal data on our behalf and exclusively in accordance with our instructions (processors), we retain control over your personal data and remain fully responsible for it. When engaging such processors, we will apply appropriate safeguards as required by applicable law to ensure the integrity and security of your personal data.

We may need to share personal data in order to protect or defend our legal rights; this includes the transfer of personal data to third parties, for example to prevent fraud and reduce the risk of non-payment.

Where we share personal data with other organisations, we require them to keep the data secure and they must not use your personal data for their own marketing purposes.

We only share the minimum amount of personal data that enables our suppliers and trading partners to provide their services to you and us.

Insofar as it is necessary for the realisation of your travel request, a transfer of data to third countries in accordance with Article 49 (1) (b) GDPR is lawful.

8.2. With public authorities or government agencies

We may disclose your personal data to public authorities such as regulatory or law enforcement authorities, lawyers or courts if we are required to do so by applicable laws or regulations, or at their request, if permitted by law and necessary to comply with a legal obligation or to establish, exercise or defend legal claims; including for the purposes of fraud prevention and credit risk reduction.

8.3. Within the TUI Group

Robinson Club GmbH is a wholly owned subsidiary of the TUI Group, based in Hanover. Further information on the Group companies can be found at: <https://www.tuigroup.com/>.

We share the necessary minimum of personal data with other Group companies insofar as this is necessary and legally permissible for the aforementioned purposes of data processing, for example

- to provide the products and services you have requested,

- to analyse, tailor and improve our products and services,
- to personalise your travel experience if necessary,
- to contact and interact with you,
- to detect, prevent and investigate fraudulent and other illegal activities and data breaches,
- and, if permitted and appropriate, for marketing or market research purposes.

We may also share personal data with other companies if contractual agreements exist with them. In these cases, we will sell or transfer our services or our rights and obligations that we may have under a contractual agreement with you. If such a transfer or sale takes place, the company receiving your personal data may use your data in accordance with this privacy statement.

When we share personal data with other organisations, we require them to keep the data secure. We only share the minimum amount of personal data that enables our suppliers and trading partners to provide their services to you and us. Our TUI Group service providers, with whom we very frequently exchange personal data for the processing of holiday trips, are as follows:

We may receive personal data about you from other companies in the TUI Group or share it with them for the following purposes:

- to provide services (including making and managing bookings or processing payments),
- to provide services in the context of customer service,
- to detect, prevent and investigate fraudulent and other illegal activities and data breaches,
- for analysis purposes and product improvement,
- for personalised offers, to send advertising with your consent or otherwise and as permitted by applicable law.

These purposes relate to legitimate interests in obtaining and sharing your personal data:

- to ensure compliance with applicable laws

Where applicable, Robinson Club GmbH refers to compliance with legal obligations (such as lawful requests from law enforcement authorities). In addition, all companies within the TUI Group may need to share personal customer data to ensure that all users on their online platforms are protected from fraudulent activity.

8.4. With transaction parties

We may also disclose personal data to an organisation to which we sell companies or assets or sell or transfer (or enter into negotiations about a sale or transfer of) our rights or obligations under an agreement with you. If such a transfer or sale takes place, the company receiving your personal data may use your data in accordance with this privacy statement.

8.5. With credit reference agencies and fraud prevention agencies

We may share your personal data with credit reference agencies (CRAs) and fraud prevention agencies (FPAs). When you receive a request from us, a digital footprint is stored in your file for other organisations to see.

We may also carry out checks with credit reference agencies and fraud prevention agencies to confirm your identity and to keep your information and TUI account up to date. This is to protect you from identity theft and other types of fraud and to prevent and detect crime or money laundering. If false or inaccurate information is provided and identified as fraud, the details are forwarded to the data protection authorities. This information may also be passed on to the law enforcement authorities.

If you tell us that you have a spouse or financial partner, we will link your data records together. You must therefore ensure that you have their consent to disclose information about them. The rating agencies also link your data with each other, and these links remain in your and in their files – unless you or your partner successfully request the rating agencies to remove this link.

We may provide these agencies with details such as your name, address, accounts and invoices, including how you manage them. This includes informing you about the status of your TUI account, what you pay us and when you miss a payment. If you do not pay your bills on time, this will be recorded by the rating agencies. The agencies may also share this with others carrying out similar checks, including organisations trying to trace you or collect money you owe them.

Each credit bureau and fraud prevention agency has its own criteria for calculating a credit score. For more information about credit reference and fraud prevention agencies, e.g. Schufa, Creditreform, Avarto Infoscore and Bürgel etc., as well as the European Anti-Fraud Office (OLAF), and how they may use your personal data,

please refer to the respective data privacy statements of the credit reference agencies and Olaf. As a rule, data processing is carried out on the basis of the special interest of the credit agencies.

9. Protection of your personal data

We know how important it is to protect your personal data and manage them accordingly. We take appropriate security measures to help protect your personal data from accidental loss and from unauthorised access, use, alteration and disclosure.

However, the security of your data also depends on you. For example, if we have given you, or you have chosen, a password to access certain services, you are responsible for keeping this password confidential.

The personal data that we collect from you may also be transferred to a destination outside the European Economic Area (EEA) and stored there. They may also be processed by companies operating outside the EEA that work for us or one of our suppliers. We take appropriate safeguards to ensure that your personal data remain adequately protected and that they are treated in accordance with this privacy statement. These safeguards include appropriate contractual clauses, e.g. standard contractual clauses approved by the European Commission, and appropriate security measures.

9.1. Transmission to third countries

The personal data that we collect from you may also be transferred to a destination outside the European Economic Area (EEA) and stored there. They may also be processed by companies operating outside the EEA that work for us or one of our suppliers. We take appropriate safeguards to ensure that your personal data remain adequately protected and that they are treated in accordance with this privacy statement. These safeguards include appropriate contractual clauses, e.g. standard contractual clauses approved by the European Commission, and appropriate security measures. You can contact us at any time using the contact details below if you would like further information on these protective measures.

9.2. Security function for forms integrated on the website

Google reCAPTCHA (storage location: USA)

To protect our contact forms, this website uses the reCAPTCHA service provided by Google Inc ("Google"). The reCaptcha function is a security function that protects our website from hacker attacks and spam.

We use the Google service reCaptcha to determine whether a person or a computer makes a certain entry in our contact or newsletter form and is only activated at this point.

Google uses the following data to check whether you are a human or a computer:

- IP address of the end device used,
- our website/form that you visit into which the captcha is integrated,
- the date and duration of your visit,
- the identification data of the browser and operating system type used,
- Google account if you are logged into Google,
- Mouse movements on the reCaptcha areas and tasks in which you have to identify images.

The data are processed on the basis of Article 6 (1) (f) GDPR. The website operator has a legitimate interest in protecting its website from abusive automated spying and SPAM.

Further information on the data protection guidelines of Google Inc. can be found at <https://www.google.de/intl/en/privacy>

9.3. Storage of data

Your personal data will be deleted as soon as they are no longer required for the stated purposes. However, we may have to continue to store your data until the expiry of the retention obligations and periods issued by the legislator or supervisory authorities, which may result from the German Commercial Code, the German Fiscal Code and the German Money Laundering Act and generally amount to 6 to 10 years. In addition, we may retain your data until the expiry of the statutory limitation periods (i.e. usually 3 years; in individual cases, however, up to 30 years), insofar as this is necessary for the assertion, exercise or defence of legal claims. The corresponding data are then routinely deleted. If data are required after this period for analytical, historical or other legitimate business purposes, we take appropriate measures to anonymise these data.

9.4. About cookies, personal data protection settings and third-party providers

Cookies are small data files that allow a website to collect and store a range of data on your desktop computer, laptop or mobile device. Cookies help us to provide important features and functionalities on our websites and mobile apps. Further information on the cookies and similar technologies we use can be found in our [cookie notice](#).

The legal basis for the setting and reading of cookies and the use of similar technologies or for the storage of information in the end user's end device and access to this information is regularly based on your consent within the meaning of Article 5 (3) ePrivacy Directive in conjunction with Article 6 (1) (a) GDPR. If cookies are absolutely necessary for us to provide a function you have expressly requested ("Necessary Cookies"), the data processing is carried out in accordance with Article 5 (3) e-Privacy Directive.

Further processing under data protection law is carried out in accordance with Article 6 (1) GDPR. Insofar as cookies are used for the data processing described in

this data privacy statement, the principles described in the [cookie notice](#) apply. You can also track the cookies used there.

You can find information on how you can customise your desired cookie settings and further data processing for your visit to our website in the cookie settings there.

9.5. Links to other websites

Our websites or mobile apps may contain links to websites of other organisations that have their own data privacy statements. Please ensure that you read the terms of use and data privacy statement carefully before you submit any personal data to any other organisation's website, as we do not accept any responsibility or liability for other organisations' websites.

9.6. Features of social media and messenger services

Our websites or mobile apps may include social media features such as Facebook, Twitter, Pinterest or Instagram, which have their own data privacy statement.

We use various plugins on our websites: Facebook, Twitter, Pinterest and Instagram. If you do not want social networks to collect data about you via active plugins, you can select the "Block third-party cookies" function in your browser settings. Then the browser does not send cookies to the server for embedded content from other providers. With this setting, however, other cross-page functions may no longer work in addition to the plugins.

If these plugins are activated, your browser establishes a direct connection with the servers of the respective social network as soon as you access a page on our website. The content of the plugin is transmitted directly from the social network to your browser, which integrates it into the website. By integrating the plugins, the social network receives the information that you have accessed the corresponding page of our website. If you are logged into the social network, it can assign the visit to your account. If you interact with the plugins, for example by clicking the Facebook "Like" button or leaving a comment, the corresponding information is transmitted directly from your browser to the social network and stored there. The purpose and scope of the data collection and the further processing and use of the data by social networks as well as your rights in this regard and settings options to protect your privacy can be found in the data privacy statements of the respective networks or websites. You will find the links below.

Even if you are not logged into the social networks, websites with active social plugins can send data to the networks. An active plugin sets a cookie with an identifier each time the website is accessed. Since your browser sends this cookie every time you connect to a network server without being asked to do so, the network could in principle use it to create a profile of which websites the user belonging to the identifier has visited. It would be possible to assign this identifier to a person again later on, for example when logging into the social network at a later date.

Integration of Facebook plugins

Social plugins ("Plugins") from the Facebook social network, which is operated by Meta Platforms Ireland Ltd, 4 Grand Canal Square, Dublin 2, Ireland ("Meta"), are integrated into our website. The purpose and scope of the data collection and the further processing and use of the data by Meta as well as your rights in this regard and settings options to protect your privacy can be found in Meta's data protection information: <https://www.facebook.com/privacy:center/>.

Integration of Twitter plugins

Social plugins ("Plugins") of the Twitter social network, which is operated by Twitter Inc. with registered office at 795 Folsom St., Suite 600, San Francisco, CA 94107, USA ("Twitter"), are integrated into our website. Push notifications

You can sign up to receive our push notifications. To send our push notifications, we use the shipping service "Airship", which is operated by Airship Group, Inc, 1225 W Burnside St #401, Portland, OR 97209, www.airship.com.

You will receive regular information about news, deals, products and suitable offers from Robinson Club GmbH via our push notifications.

To log in, you must confirm your browser's request to receive notifications. This process is documented and stored by Airship. This includes storing the login time and your browser ID or device ID. It is necessary to collect these data so that we can trace the processes in the event of misuse and therefore serve our legal protection.

In order to be able to display the push notifications to you, Airship collects and processes your browser ID on our behalf and, in the case of mobile access, your device ID. By subscribing to our push notifications, you agree to receive them. The legal basis for the processing of your data after registration for our push notifications is Art. 6 (1) (a) GDPR if you have given your consent.

Airship and Robinson Club GmbH also analyse the push notifications statistically. Airship can thus recognise whether and when our push notifications have been displayed and whether or when you clicked on them.

You can revoke your consent to the storage and use of your personal data, to receive our push notifications and to the statistical survey described above at any time with effect for the future. For the purpose of revoking your consent, you can change the settings provided for receiving push notifications in your browser. If you use our push notifications on a desktop PC with the Windows operating system, you can also unsubscribe from our push notifications by right-clicking on the respective push notification in the settings that appear there.

Your data will be deleted as soon as they are no longer required to fulfil the purpose for which it was collected. Your data will therefore be stored for as long as the subscription to our push notifications is active.

10. Automated decision-making

We use algorithms and automated decision-making to improve your user experience and to ensure the security of our website and other products and services. Automated decisions can be made, for example, as part of services on our websites or mobile apps, such as

- the sort order of the search results you see on our website,
- the nature of the recommendations for travel and travel experiences that we make on the website or in our promotional communications; or
- the prevention and detection of breaches of our customer terms and conditions or other fraudulent activity on our website or other resources.

However, we will not make any automated decisions that would have a legal or similarly significant effect on you unless you have given us your express consent, the processing is necessary for the conclusion of a contract with you or it is permitted by law. We will take appropriate measures to protect your rights and freedoms in such cases, which may include your right to have the action reviewed by a member of our client team

11. Your rights under data protection law

You have the right to request a copy of the personal data we hold about you, although you should usually also be able to view and update the data associated with your customer account and booking online. Please include details that will help us to identify and locate your personal data. Where we can provide access to data, we will do so free of charge unless further copies are requested. In this case, we may charge a reasonable fee based on the administrative costs.

We want to ensure that the personal data we hold about you are accurate and up to date. If any information we hold about you is incorrect, please let us know.

You can also have your personal data corrected or deleted, object to the processing of your personal data and, where technically feasible, request that personal data that you have transmitted to us be transferred to another organisation.

We will update or delete your information unless we need to keep it for legitimate business or legal purposes.

You can also contact us if you have a complaint about how we collect, store and use your personal data. Our aim is to provide the best possible remedy for your complaints.
